- Keep up to date

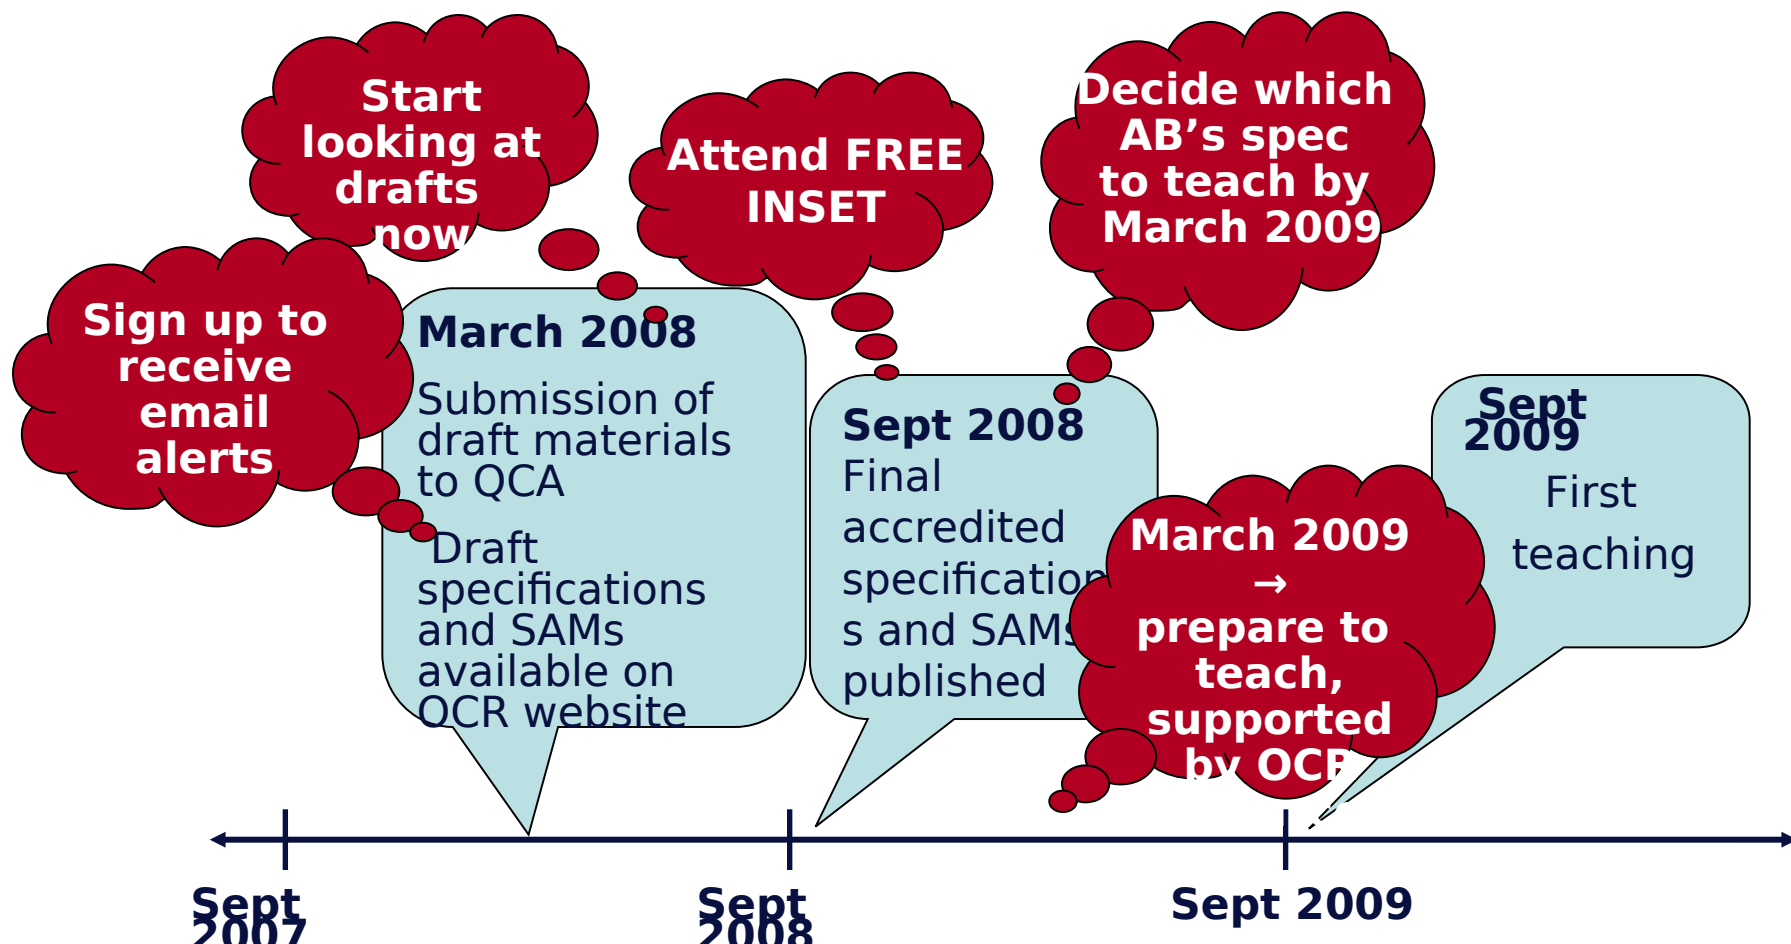

Are you
aware of the
Government's
changes to
GCSEs?

What are the changes?

- Greater choice of units
- Coursework replaced by Controlled Assessment
- Greater emphasis on subject specific skills
- Flexible Assessment – examine units during January sittings (in some subject areas)
- Re-sits available for individual units

Supporting you through the changes

We offer a range of support materials, developed following extensive research and consultation with teachers. We've designed them to save you time when preparing for the new specifications and to support you while teaching them.

Our support materials and events include face-to-face training courses, schemes of work that you can customise to your needs, endorsed publisher partner resources, access to teacher and examiner networks (both online and offline), plus an extensive past paper collection.

Our online resources include:

- E-communities – online networks of subject specialists for sharing knowledge, views and ideas
- Interchange – a completely free and secure website that helps you carry out the administrative tasks associated with examinations quickly and easily
- Past examination papers
- Marking schemes
- Email alerts – for teachers who register for updates.

Download GCSE Specifications

Draft specifications and SAMs for GCSEs (for first teaching in 2009) are now available.
